DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, Species A (claims 1, 2, 5, 7, and 8) in the reply filed on 01/23/06 is acknowledged.
2. Claims 3, 4, 6 and 9-24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 01/23/06.

Claim Rejections - 35 USC § 102

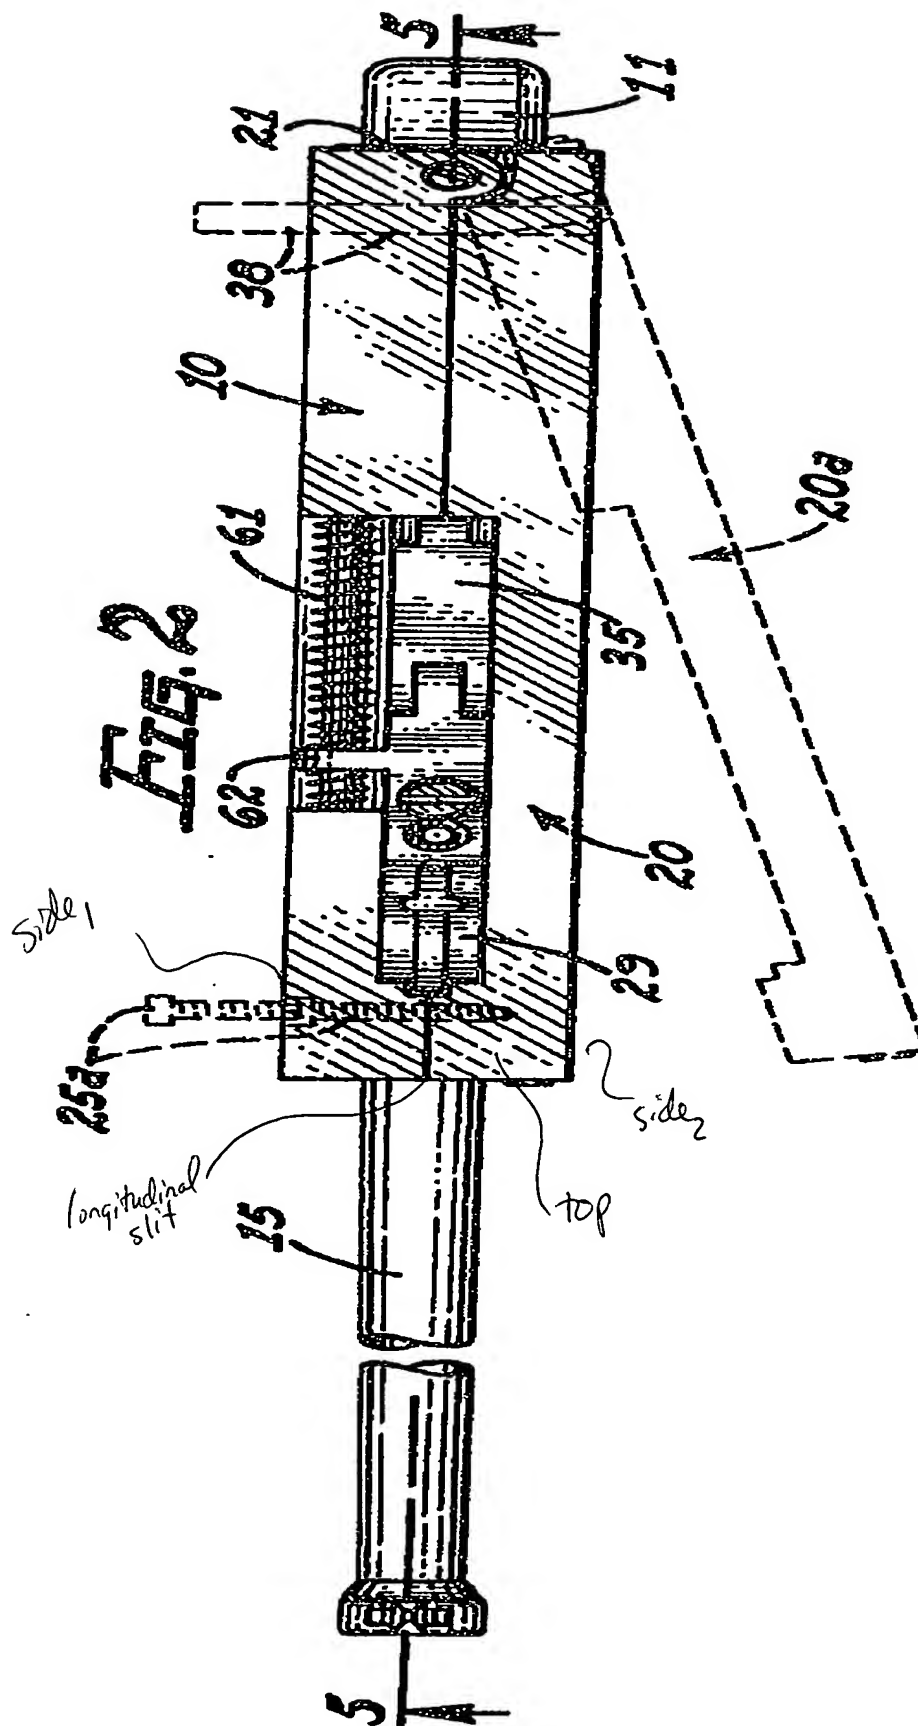

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

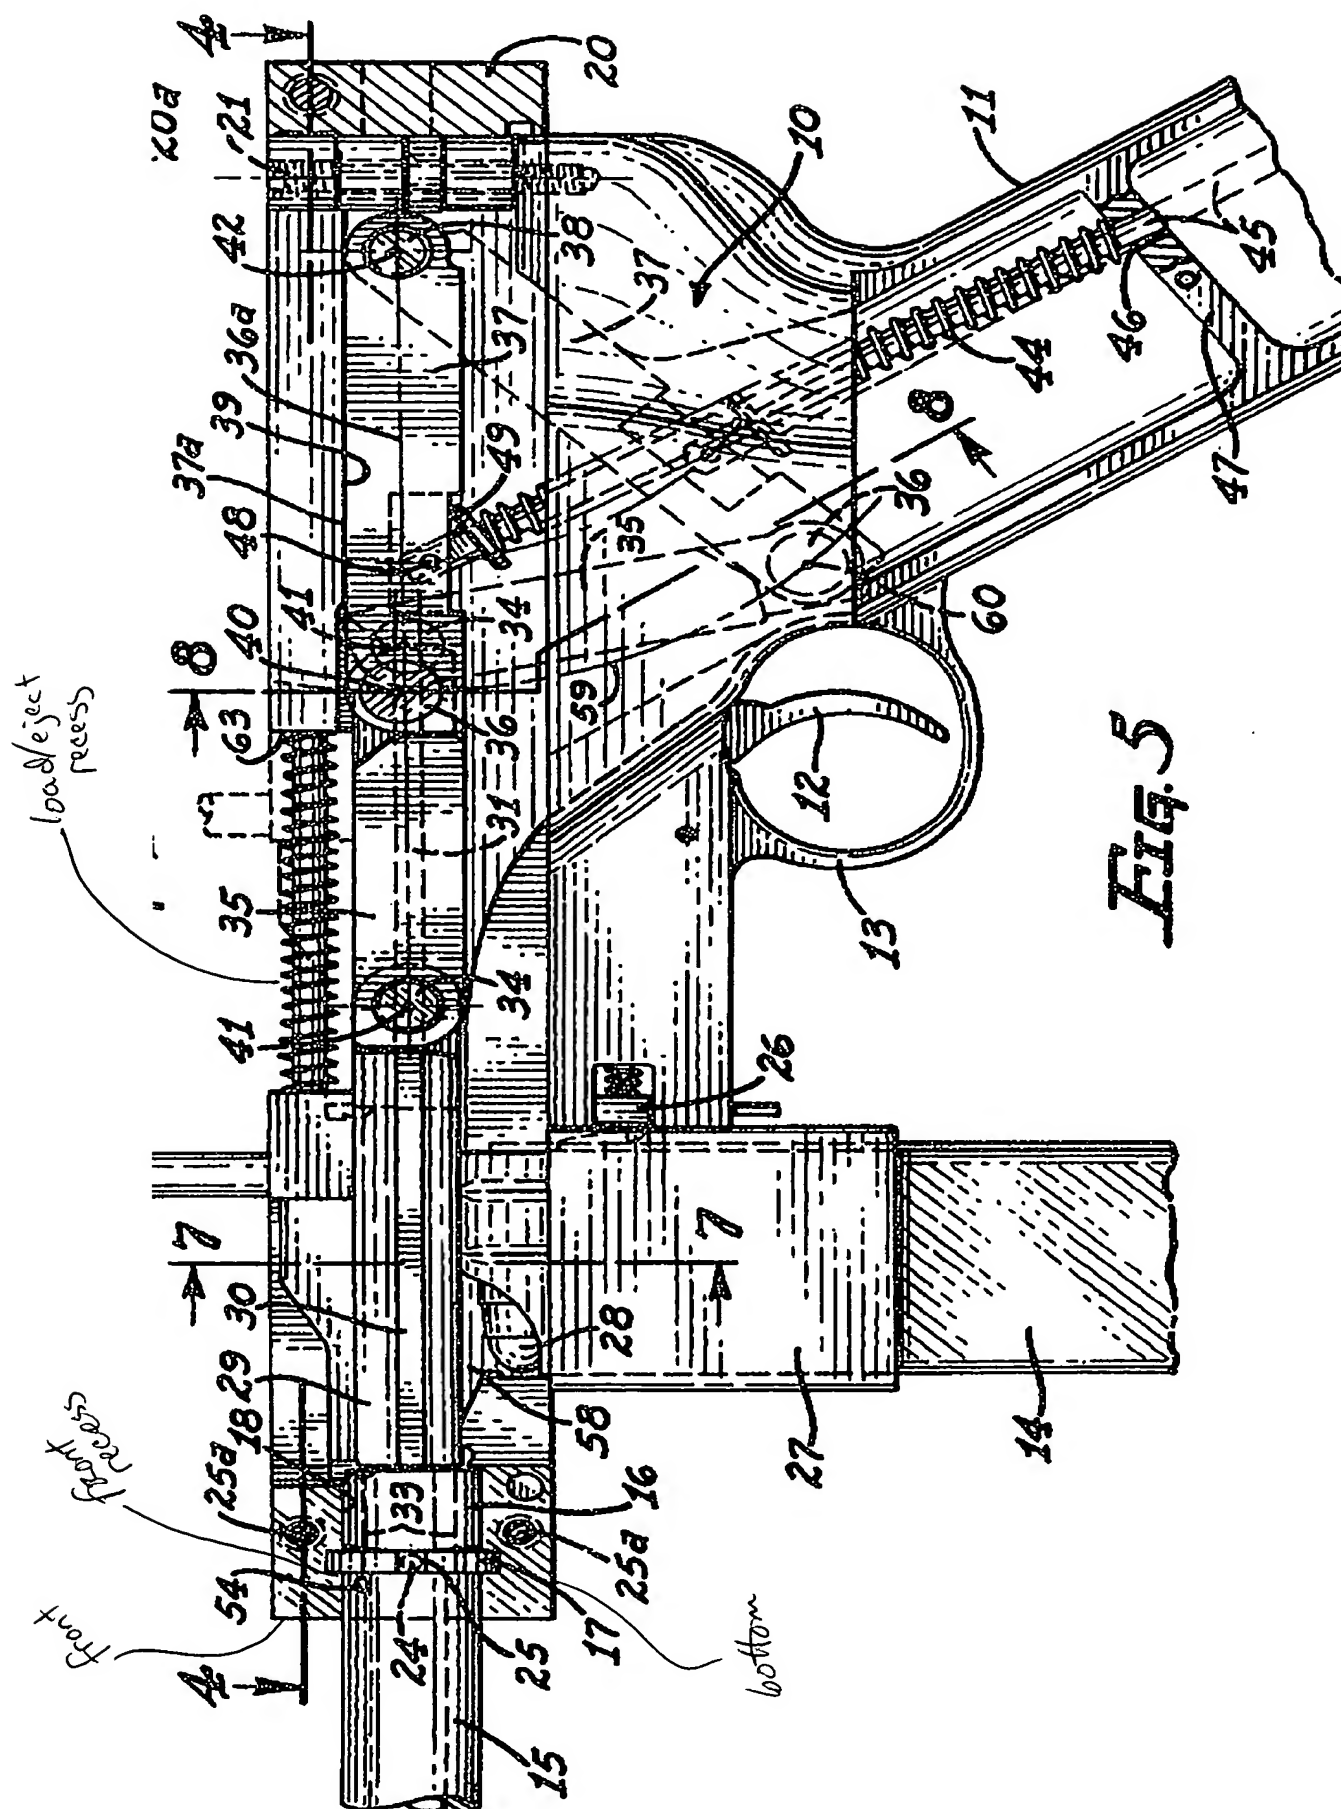

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 5, 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by US 3711980 issued to Palama. Palama discloses a receiver for a firearm as shown below.

5. Claims 1, 2, 5, 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Canadian Patent 925334 issued to Perrine. Perrine discloses a firearm as shown below.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 7 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over any one of Palama or Perrine. While neither Palama nor Perrine disclose a receiver whose materials are comprised of those materials in claims 7 and 8, the Examiner takes Official Notice that such materials are well known materials to use for receivers. The suggestion/motivation for using aluminum (claim 7) or plastic (claim 8) would have been to manufacture a gun that was lightweight.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited on form PTO-892 are cited as of interest to show similar receivers.

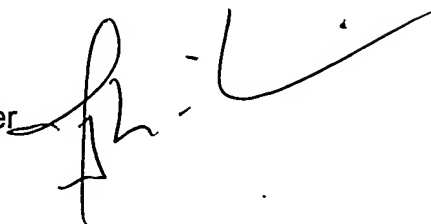

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Troy Chambers whose telephone number is (571) 272-6874 between the hours of 7:00 a.m. to 3:30 p.m., M-F. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael J. Carone, can be reached at (571) 272-6873.
